ternational has been transferred to Palestine from Taylor, and will make this his home, having moved his family here last week.

The improvements now nearing completion on the Sol Maier residence on South Sycamore street add greatly to that already pretty home. It is assuming the colonial style of architecture.

A. G. Burton came home last night from a visit to McLennan, Ellis, Hill and Parker counties, and says he never saw better crop prospects. He thinks this is going to be banner crop year of the state.

An effort will be made to have Rabbi Cohn of Galveston deliver the address to the High School graduating class at the commencement exercises. Rabbi Cohn delivered a lecture to the pupils here recently, and all who heard him are enthusiastic over the prospects of hearing him again.

Ernest Smith, the traveling representative of the Houston Chronicle, is in the city. He travels a great deal, and is a close observer, and he says Campbell's chances for the Democratic nomination for governor grow brighter every day, and that he is decidedly the first choice of nearly every section he covers.

I will be at Mrs. Cutter's, corner of Pine and Fowler streets, next week, and will sell my house and furniture. Mrs. Fred Evans. 5-31

Have you property for sale? If we could bring every piece of property offered for sale in this county to the notice of those who would be more than glad to buy, we would soon be millionaires. We cannot do it all at once, but we are doing it as fast as we can; and if you give us your property or business for sale you will share in our success. Wright and Kendall. 5-21

RUSK IRON FURNACE HAS BEEN SOLD

AND A BOOM IS ON.—LAND VALUES HAVE ALREADY JUMPED UP.—PEOPLE ENTHUSED.

Editor J. S. Burke of the Rusk Press-Journal arrived in the city this afternoon, and says the news was telegraphed to Rusk yesterday that the deal selling the big Rusk iron furnace to Boston capitalists had been closed and the furnace was now the property of these capitalists and that they had in mind big things. Mr. Burke says the news caused great enthusiasm among the people of Rusk, and that land values at once took a new value, and none on the market.

Mr. Burke says there seems to be no question as to the intentions of the promoters and purchasers of the big furnace. Things are moving over there, and it is the prediction of those in a position to know that Rusk and New Birmingham will grow at a rapid pace into a big iron manufacturing center.
